

MCP CONNECTOR · GROWTH & CREATOR

# TURN CLAUDE INTO YOUR CREATIVE ENGINE

Connect Eromify to Claude and generate avatar images, videos, and full campaigns right from your conversations.

## 1 Open Claude settings

Launch Claude Desktop or open [claude.ai](#) and go to:

Settings → Connectors

## 2 Add a custom connector

Name it Eromify and paste the URL:

`https://api.eromify.com/mcp`

## 3 Click Connect, approve, done

Claude pops open Eromify in a new tab — sign in if needed, click **Authorize**, and you're back in Claude. No API keys to paste.

Manage connections

A COMPLETE STUDIO

# YOUR WHOLE ENGINE INSIDE CLAUDE

13 tools, one connection. Manage avatars, generate, edit, automate — all from a chat.

AVATAR LIBRARY

## TALK TO YOUR AVATARS BY NAME

List my avatars

You have 4 avatars:

Lily

READY

Aria

READY

Noa

READY

Maya

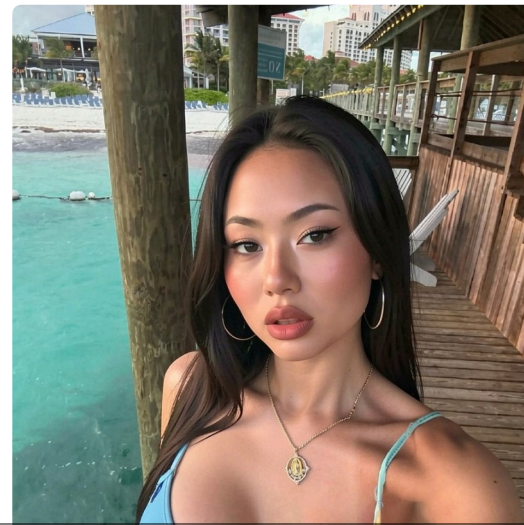

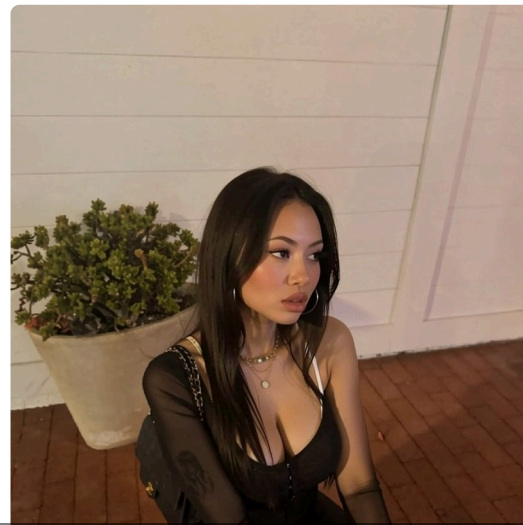

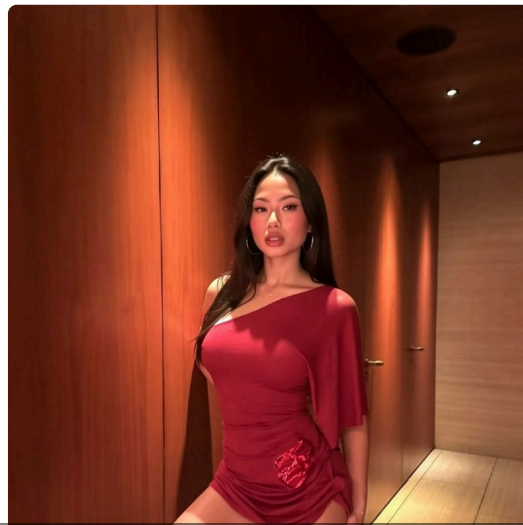

READY

## BULK GENERATION

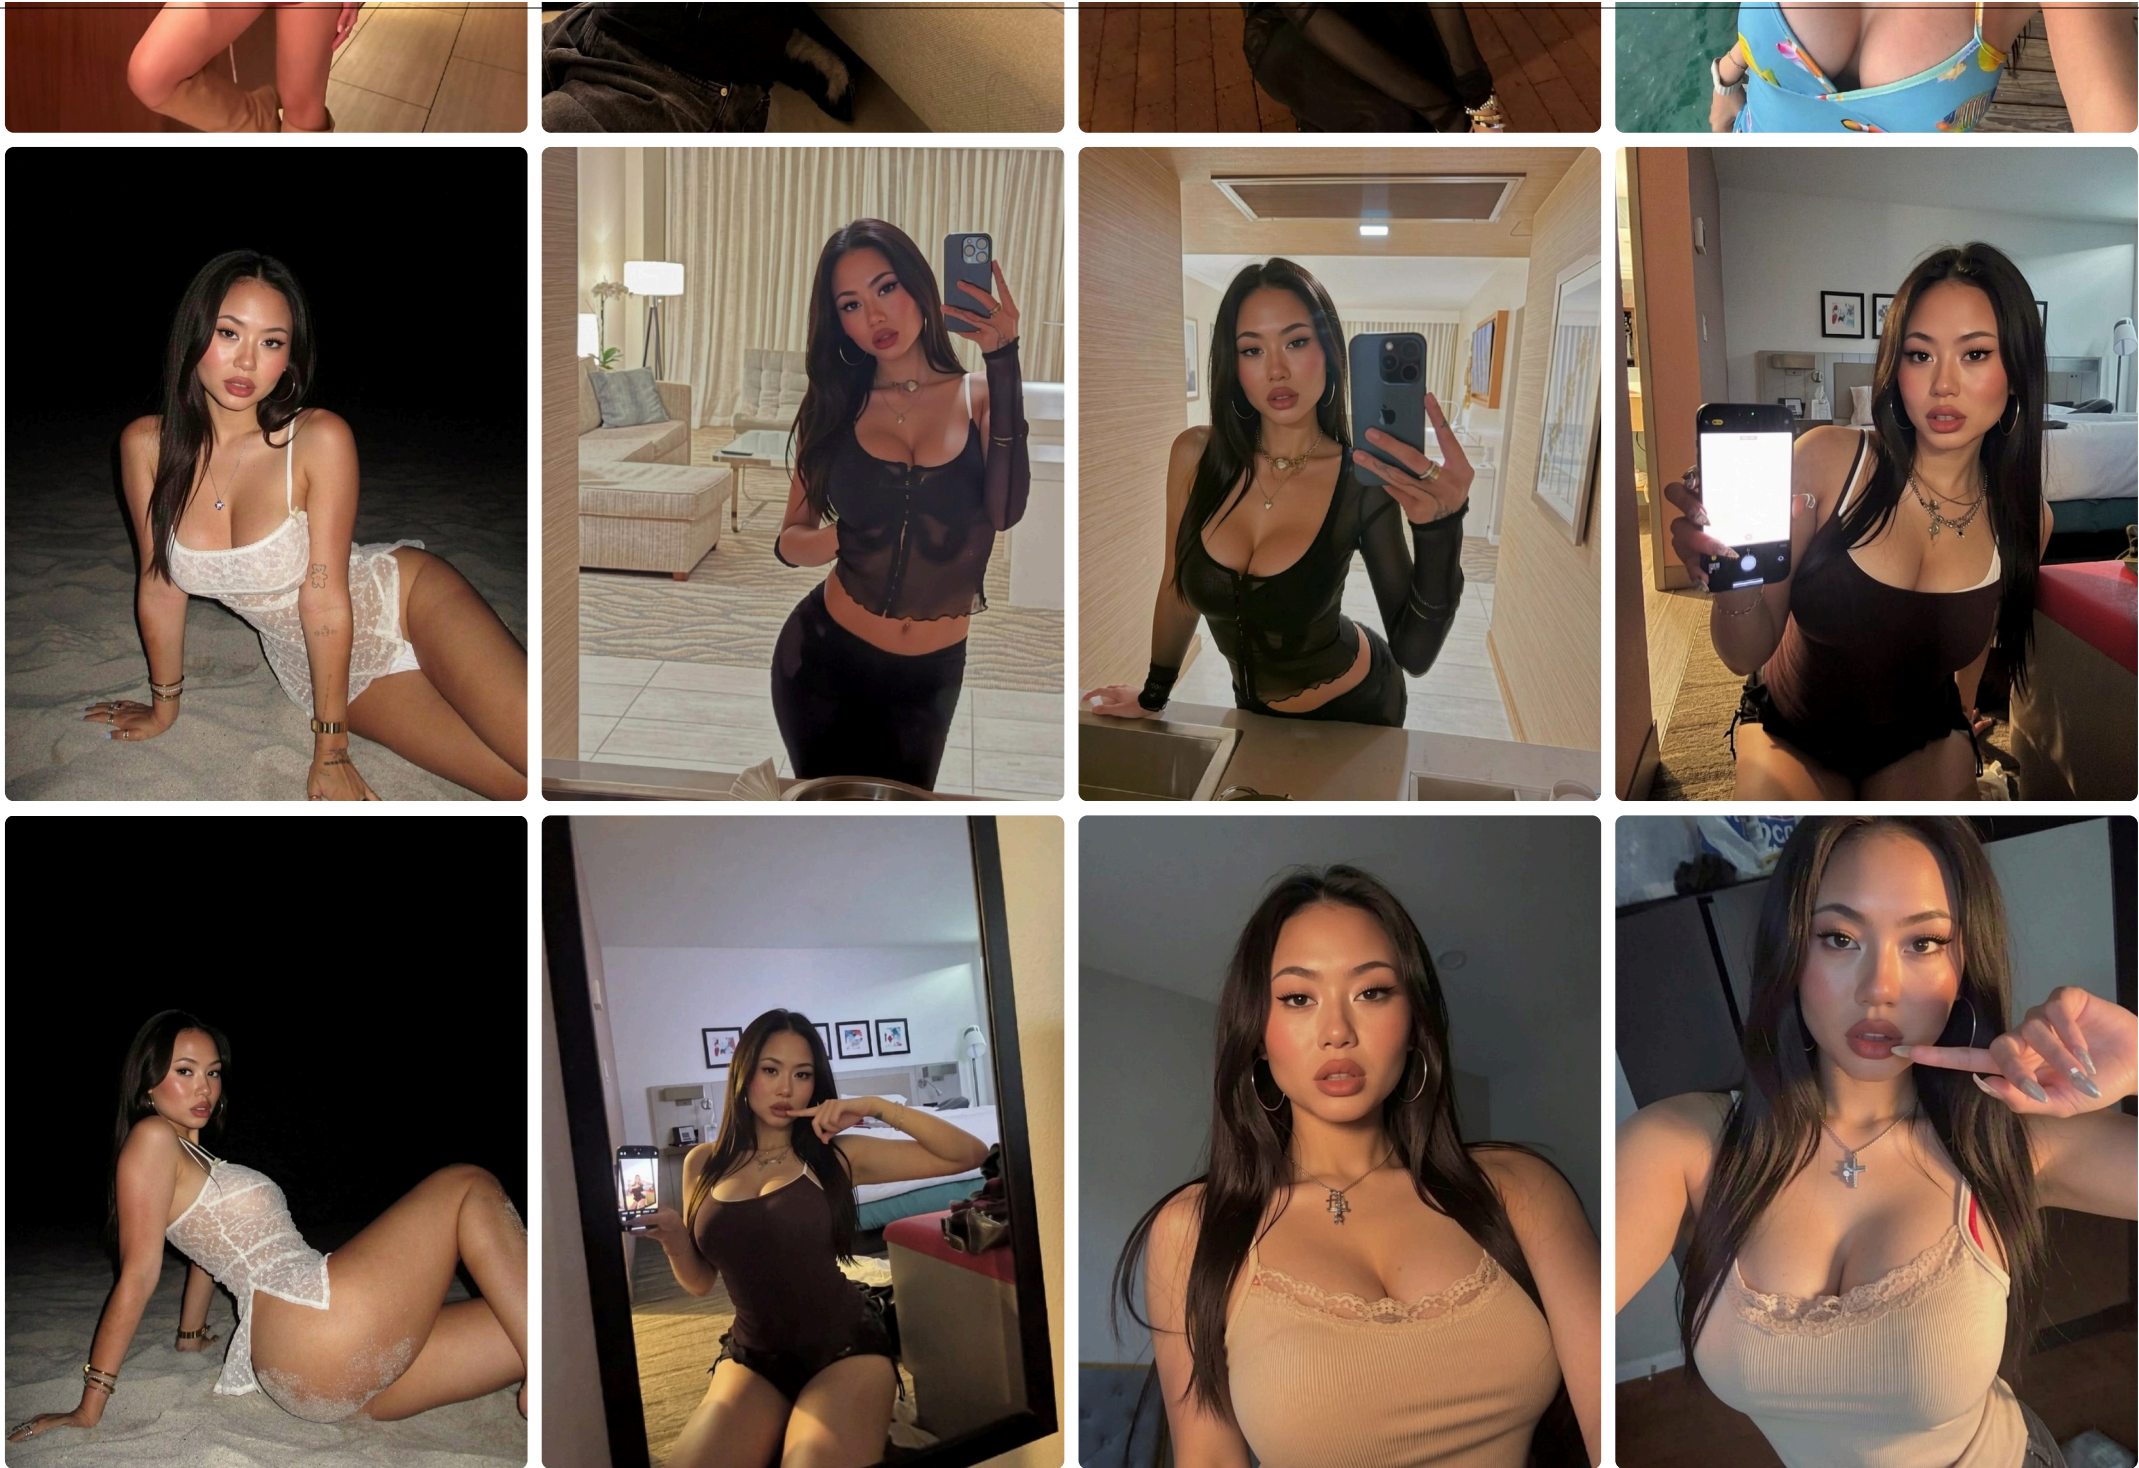

## 50 POSTS. ONE PROMPT.

Generate 12 IG-ready photos of Lily for next week — vary the outfits, moods, and lighting. Mix of indoor and outdoor. 4:5 portrait.

Generating 12 images...

✓ Done · 120 credits used

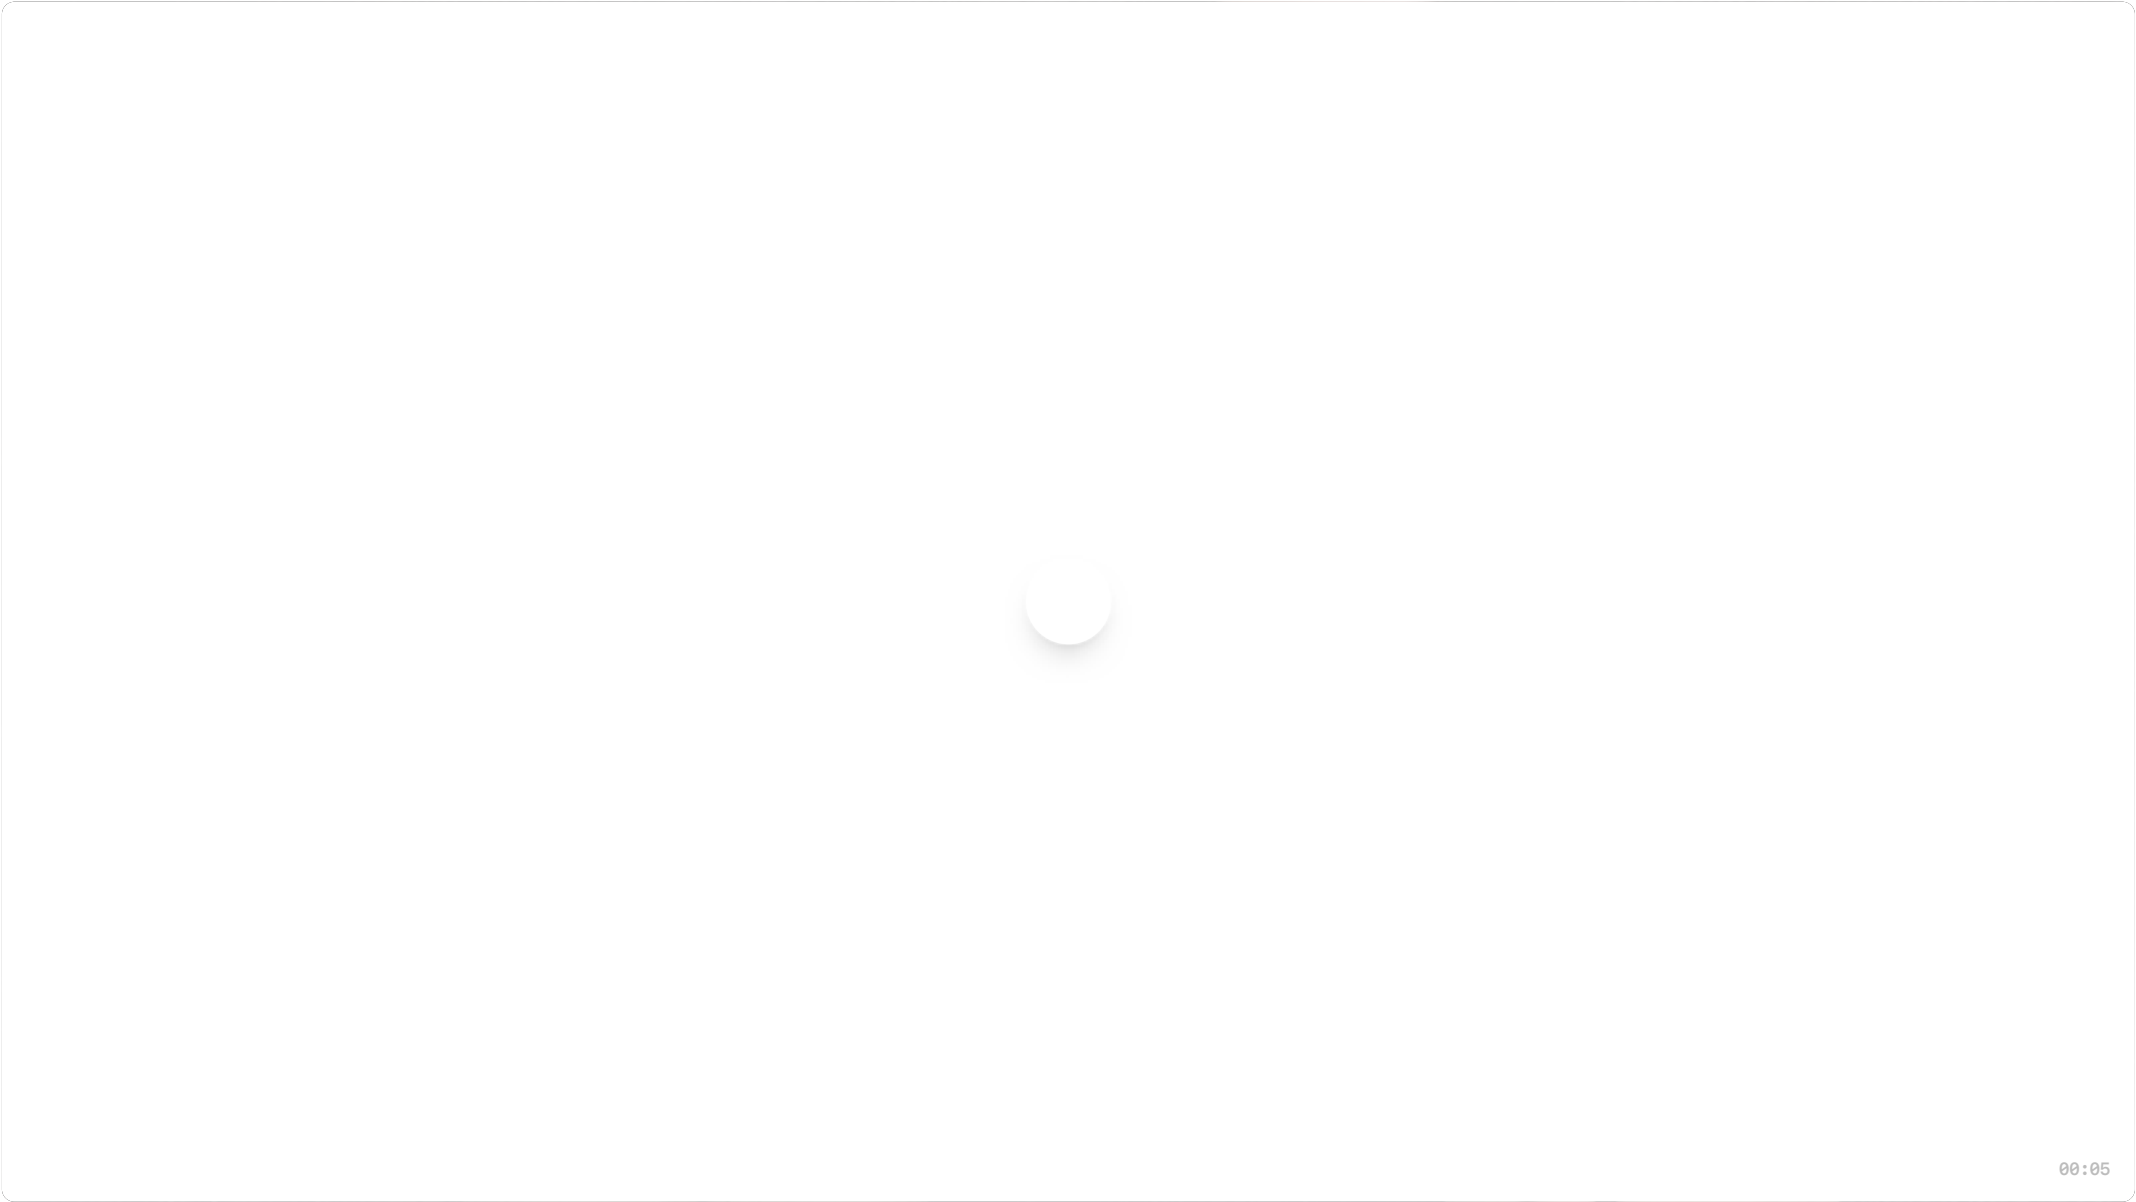

IMAGE TO VIDEO

# BRING STILLS TO LIFE

Pick any image and a motion prompt. Choose Kling, Veo, Sora, Hailuo, WAN — Claude picks the right model from cost and quality cues in your prompt.

Make a 5s video of this image — slow zoom in, cinematic. Use Kling 2.5 turbo.

Running **kl~~ing~~-2.5-turbo** · 5s · 9:16

✓ 50 credits

SAME CREDITS, NO MARKUP

# YOUR BUDGET, YOUR CONTROL

Claude can read your credit balance, plan, and daily limits before any expensive call. You stay in control of spend — and you never pay extra to drive Eromify from Claude.

How many credits do I have? Can I run 50 videos?

Pulling your balance...

6,000

## Growth

Active

50 videos at ~50 credits each = 2,500 credits. You have 6,000 — plenty of room.

## WHAT YOU CAN SHIP

# FROM IDEA TO CAMPAIGN IN ONE CONVERSATION

## QUICK ASSET

## Generate one asset in seconds

Generate a cinematic wide shot of a neon-lit Tokyo alley at night.

FULL CAMPAIGN

## Build a campaign from a chat

Using Lily, generate a 12-image campaign across 4 cities, then 5s videos for each.

CURSOR / SCRIPTS

## Automate posting on a schedule

Usando o teclado, clique sobre o ícone de uma das seguintes URLs para acessar o conteúdo de uma das páginas de Fluxo LTP.

WRITE A NODE SCRIPT THAT USES MY MLX KEY TO GENERATE ONE NEW IMAGE PER DAY AT YAM.UIC.

LIMITS & SECURITY

BUILT TO HANDLE SCALE

Five layers of rate-limiting and abuse protection. Credit caps still apply. Revoke any key in one click.

600

REQ / MIN PER KEY

500

IMAGES / DAY

50

VIDEOS / DAY

100

EDITS / DAY

SHA-256 hashed at rest

We never see your raw key. If our DB ever leaked, attackers would get hashes — useless for replay attacks.

Instant revocation

Revoke a key from the dashboard. The next request from that key fails within milliseconds.

Per-key rate limits

Each API key has independent burst & daily budgets. One compromised key can't lock the rest.

DDoS protection

Pre-auth IP limits, per-user generation budgets, daily caps. Layered defense at every step.

FAQ

## COMMON QUESTIONS

### How does the Claude connector work?

Eromify runs a Model Context Protocol (MCP) server at [api.eromify.com/mcp](https://api.eromify.com/mcp). On [claude.ai](https://claude.ai) you add it as a custom connector and approve a one-click consent prompt — no API keys to paste. Claude Desktop, Cursor, and other MCP clients can use the same URL plus a personal API key from [/connections](#). Once connected, the assistant can list your avatars, generate images and videos, edit existing assets, and check your credit balance from a normal chat.

### Which plans include this?

### Do generations cost extra from Claude?

### What are the rate limits?

### Is it safe? Can someone steal my key?

### Can I use this from Cursor or scripts?

### What happens if I cancel or downgrade?
