USAGE

Upload as identity/face reference to Kling / Seedance / Wan for every single generation. Get fresh signed URL each session.

HIGH

Why: Model hallucinates tattoos on any Black male character

Fix: Add to negative prompt: "no face tattoos, no neck tattoos, clean face, no neck markings, no chest tattoos"

HIGH**Too muscular / thick / bloated**

Why: Default male body type in most models skews athletic-stocky

Fix: Add: "slender lean tall basketball player proportions, long limbs, narrow chest, long neck, NOT bodybuilder, NOT thick"

HIGH**Likeness / face drift**

Why: Identity reference loses hold over longer prompts

Fix: Always upload the blue-lit portrait as reference image. Shorter prompts drift less — trim if needed. Generate 3 variations, pick best.

MED**Extra letter / branding on outfit**

Why: Model reads "NBA JOSH pendant" and stamps letters on clothing

Fix: Describe each piece of clothing explicitly without any text labels. Note: pendant chain OK, shirt letters NOT OK.

MED**Wrong glasses style**

Why: Vague "sunglasses" description resolves to generic frames

Fix: Specify EXACTLY:

Red snake-frame sculptural: outfits A, B, C, D

Wavy textured sculptural (white/iridescent): E, G, Benz

Black single-lens narrow visor: alternate option

LOW**Officers too far back / not visible**

Why: Depth-of-field blurs them to nothing

Fix: Add: "officers in full uniform clearly visible in mid-ground, sharp enough to read faces, charging hard"

MED**Officers ACTUALLY reaching Josh**

Why: Model resolves "running toward" as contact

Fix: Add: "officers are frozen mid-stride, stuck in place, not advancing, stuck on invisible treadmill, zero forward progress"

Every outfit includes: Diamond NBA JOSH 444 pendant + Cuban link + Iced AP watch + Vintage hanging mic

Minecraft Creeper Street

Setting: Urban daytime — unexpected, playful

Minecraft creeper lime green graphic tee (black creeper face print) + wide-leg camo cargo pants + blue paisley basketball sneakers. Unexpected contrast with officer aggression. Keep diamond pendant + AP watch.

PENDING

Red AMG Benz — Special Scene

Setting: Dusk or night, urban city street

BORROW from reference (IMG_2971): deep metallic red AMG Mercedes-Benz GT 4-door, door open, interior purple/pink ambient light, AMG grille. Josh leans against car. Outfit: white streetwear jacket over graphic tee + embroidered white cargo shorts + purple Nike VaporMax. Officers frozen mid-charge in background. MUST replace character face with Josh's likeness — slim 6'3" build, red dreads, same jewellery.

PENDING

SUNGLASSES — BY OUTFIT

Sculptural wraparound frames, red tint or iridescent lens, unusual organic snake-like shape, NOT standard rectangular.

WAVY TEXTURED SCULPTURAL [OUTFITS: E, G, BENZ SCENE]

White or pearl frame with an unusual wavy/bumpy texture. Multi-pane colourful lenses (orange, green panels). Very avant-garde shape.

BLACK SINGLE-LENS NARROW VISOR [OUTFITS: ALTERNATE / ANY]

One-piece narrow horizontal visor, matte black frame, orange/red mirror lens. Futuristic, minimal — like a racing goggle.

Large chunky iced-out pendant. Letters "NBA" arc at top, "JOSH" bold below, "444" smaller underneath. Full diamond/crystal coverage. Silver colourway. Worn on heavy diamond Cuban link chain (thick, no gaps, fully iced).

AP DIAMOND WATCH

Audemars Piguet fully iced out. Octagonal case shape. Full diamond on bracelet, case, and dial. Spiked spike bezel. Blue/sapphire crystal dial with diamond indices. Left wrist.

Black quilted vest with cut-out panels forming a skeleton/rib pattern — very unique structural piece. Can layer over tees. Good for a darker editorial look.

CAMO TACTICAL PLATE CARRIER (IMG_1611)

Multicam/OCP camo plate carrier vest with velcro panels. Utility/military aesthetic. Can pair with camo cargo pants for full tactical editorial.

- 1
- CONFIRM with Josh which outfit and provider before starting. No exceptions.
- 2
- Get a fresh signed URL for the reference image from Supabase storage (studio/josh-refs/josh-blue-portrait.webp). URLs expire after 1 hour.
- 3
- Write the generation prompt using the base template below. Swap in the outfit block from the outfit library.
- 4
- Add corrective negative prompt lines for face tattoos, muscle build, and any outfit-specific issues.
- 5
- POST to the provider API. Write JSON to a temp file and use curl --data @file.json (avoids heredoc quoting issues).
- 6
- Generate 3 variations per outfit. Pick the one with the strongest likeness — not the best composition.
- 7
- If likeness drifts or extra tattoos appear: regenerate with shorter prompt + the negative corrections.
- 8
- Once a good result is confirmed, save the URL and mark that outfit as DONE in the tracker.

PER-CLIP EDITING STEPS	
	Lay the 24-second hook underneath. Align so Josh's movement hits the beat drop. The same audio goes under EVERY clip — the outfit change is what keeps it fresh.
Colour grade	Golden hour clips: warm orange lift, teal/cyan shadows. Night clips: deep blue/teal grade, crushed blacks, cool highlights.
Motion blur on officers	Video Effects !' Motion Blur (medium intensity). This sells the treadmill illusion — they look like they're running hard while going nowhere.
Vignette	Effects !' Vignette at 25–35%. Darkens edges, pulls the eye to Josh.
Speed ramp (optional)	Slow the moment Josh turns and smirks to 40% speed for 0.5 seconds. Then cut to normal. Punch.
Export — Vertical (TikTok / Reels)	1080 × 1920 px, 60fps, H.264. Main posting format.
Export — Horizontal (YouTube)	1920 × 1080 px, 60fps, H.264.

"[Outfit vibe] Ø=Ý% They ran full speed. Didn't move an inch."
